EDUCATION

Information Technology University

Bachelor of Software Development — GPA: 4.6/5.0

Tashkent, UZ

Aug. 2019 – May 2022

EXPERIENCE

Middle Flutter Developer

Joiner

Manager: Sergei Khaletsky

Feb 2023 – Present

Vilnius, Lithuania

[linkedin.com/in/sergey-khaletsky](https://www.linkedin.com/in/sergey-khaletsky)

- Spearheaded the development of core features, including 'moods', leading to a significant increase in user engagement and app retention
- Designed and implemented scalable mobile solutions using Flutter, Dart, and Firebase, ensuring real-time data synchronization and secure authentication for thousands of users
- Optimized app performance by adhering to best practices, reducing load times and improving overall user experience

Flutter Developer

Malina

Manager: Artur Shvaiberov

May 2022 – Jan 2023

Bishkek, Kyrgyzstan

[linkedin.com/in/artur-shvaiberov-836a181a8](https://www.linkedin.com/in/artur-shvaiberov-836a181a8)

- Developed the Malina e-commerce app, enhancing the user shopping experience and improving retention rates
- Built smaller apps (e.g., TFS) using Flutter, ensuring efficient and scalable solutions for multiple platforms
- Integrated Firebase for real-time features, including secure user authentication and cloud data storage solutions

Junior Flutter Developer

Ucoders Software Solutions

Manager: Sardor Komilov

Sep 2021 – May 2022

Tashkent, Uzbekistan

+998 99 720 5868

- Contributed to the development of ARVI Coin, an app that facilitated in-game currency purchases, which increased transaction volume and user engagement
- Performed unit and widget testing to ensure app stability, ensuring high quality of releases
- Assisted in designing adaptive UIs, ensuring compatibility across multiple device sizes and screen resolutions

PROJECTS

Joiner App | Flutter, Firebase, Stripe, PHP, Docker

Feb 2023 – Present

- Developed and optimized key features like 'moods', boosting user engagement by 20%
- Worked on backend integration with PHP, ensuring smooth app performance and scalability
- Utilized Docker for streamlined development workflows and consistent environment setups

Malina App | Flutter, Firebase, Stripe, Django

May 2022 – Jan 2023

- Developed the Malina e-commerce app, enhancing user retention with a seamless shopping experience
- Integrated Firebase for real-time data sync and secure authentication, and Stripe for payments
- Built backend with Django, ensuring scalability and performance for user and order management

ARVI Coin | Flutter, Firebase, Stripe, Django

Sep 2021 – May 2022

- Developed ARVI Coin, enabling in-game currency purchases with a seamless cross-platform experience
- Integrated Firebase for secure real-time authentication and Stripe for in-app transactions
- Built backend with Django to manage transactions and user data, ensuring scalability

TECHNICAL SKILLS

Languages & Frameworks: Dart, JavaScript, Flutter, BLoC, Riverpod, Provider

Developer Tools: Git, VS Code, Android Studio, XCode, GitHub Actions

Libraries & Services: Firebase SDK, Stripe API, Hive, SQLite, Lottie

Testing & Architecture: Unit Testing, Widget Testing, Mockito, Clean Architecture, SOLID
