– **State Management:** Riverpod, BLoC, Provider
– **Architecture:** Clean Architecture, SOLID, MVVM
– **Databases & Cloud:** Firebase, Hive, SQLite
– **Optimizations:** Isolates, lazy loading, custom rendering
– **Payments:** Stripe API, in-app purchases
– **CI/CD & Tools:** Git, Codemagic, VS Code, Xcode
– **Testing:** Unit, Widget, Integration, Golden tests
– **UI/UX:** Responsive design, localizations, animations
– **Integrations:** Notifications, Deep Links, REST APIs, GraphQL

Experience

Stemdev
Lead Flutter Developer
March 2025 – August 2025
Uzbekistan (Hybrid)
– Building cross-platform apps with Flutter following clean architecture principles
– Optimizing app performance, scalability, and maintainability

Joiner App
Middle Flutter Developer
Dec 2023 – Feb 2025
Lithuania
– Developed "Moods" feature (Instagram-like stories) increasing engagement
– Improved responsiveness across iOS/Android devices and optimized HTTP requests
– Enhanced debugging tooling for faster development cycles

Malina
Flutter Developer
Jul 2022 – Oct 2023
Kyrgyzstan (Remote)
– Delivered e-commerce features: search, cart, product listings
– Optimized API integrations, reducing data load times
– Contributed to additional apps (e.g., TFS) with scalable solutions

Ucoders Software Solutions
Flutter Developer
May 2021 – Jul 2022
Uzbekistan
– Built ARVI Coin app with Firebase + Stripe for secure in-game purchases
– Increased in-app purchases by 25% within 3 months
– Improved backend performance, reducing fetch times by 30%

Projects

Joiner App — **Flutter, Firebase, Stream Chat, PHP**
– Implemented "Moods" feature boosting user engagement by 20%
– Optimized performance for smoother cross-platform experience

Malina App — **Flutter, Firebase Functions, Django**
– Delivered core e-Commerce functionality with secure payment workflows

ARVI Coin — **Flutter, Firebase, Stripe, Django**
– Built scalable cross-platform app for in-game currency purchases
– Increased transactions and retention with secure payments + real-time sync

Education

Information Technology University
Bachelor of Software Development
Aug 2019 – May 2023
Tashkent, Uzbekistan
– GPA: 4.6 / 5.0

Certifications & Achievements

– IELTS 7.5 (2025)
– Active contributor on GitHub (Flutter & Firebase projects)

Languages

Uzbek (Native) · English (IELTS 7.5) · Russian (Intermediate)
